Training Day Schedule

Specialist Botox & Dermal Filler Training

KT Training and Merimna Institute are proud to offer a specialist training for Merimna Institute doctors. This is a one day intensive training on both Botulinum Toxin Treatments and Dermal Filler Treatments. Candidates who participate in this training will have to attend two 3 hour webinar via the internet one week prior to the intensive training day in London. Candidates will be sent pre course material to review the techniques before attending the practical training day. Candidates will have free access to our on-line business training as well as technical training to prepare them for the training day.
